We are now offering the Head Gardener's tour, a guided tour around this remarkable garden, with one of the people who created it. The tour takes one and a half hours and includes morning or afternoon tea. Learn the landscaping and gardening secrets that are the key to the garden's success. The content of the tour will be shaped to suit the individual needs of the clients.

Stroll through a landscape of thousands of colourful native plants and catch the delicate fragrances of a truly Australian garden. 7000 Australian native plants across hundreds of species make this a special experience. Find out what makes this a sustainable, waterwise, low chemical use garden.

Tread where the French explorers trod, 200 years ago. Take in the view of North West Bay, first mapped by France's greatest naval map maker. Get up close and personal with species of plants first systematically named by the pioneers of Australian scientific botany.

Sip tea on the terrace, drink in the view, listen to the chatter of the birds, capture a moment or two of tranquility. Your hosts, Margaret and Bill Chestnut want you to share the vision – be inspired by the wonder of native plants in a landscaped garden.

Bookings are essential: phone (03) 6267 2020 or email gardens@inverawe.com.au Just \$45 per person, concessions apply
